ERVSIPELAS AND SALT RHEUM CAN BE CURED: Mrs Giles Turner, of Montville who had been afflicted with Erysipelas for the last Twenty Years, and three times within the last five years, has been entirely Blind from the effects of this dreadful CURE EFFECTED BY DR. WEAVER'S SYRUP, AFTER

ALL OTHER TRIED MEDICINES HAD FAILED.

READ THE CERTIFICATE:

Montvills, March 5, 1851.

Messrs. S. A. Weaver & Co.,—Gentlemen: In relation to my wife, I would say that from childhood she has been afflicted with a Humor. About twenty years since it appeared in a very distressing form of Erysipelas, at first in a spot of a bright cherry color on the side of the face, accompanied with a painful sensation, similar to that produced by fire. From this point it spread over the whole face, which became so swellen that for accertaidays she was entirely BLAND, and so disfigured that her most intimate acquaintances did not recognize her. She had been in this situation three times in the last five years. Its effects sometimes appeared in small cracks in the skin, commencing back of the ears, thence extending over the sides of the head. So sore and painful were they, that at night was impossible for her to allow them to touch the pillow. The discharge from these sores was so profuse that it frequently well through the dressings and run down the sides of the neck, and accertail was it, that when it came in contact with the skin, the effect was the same as that of holling water. ALL OTHER TRIED MEDICINES HAD FAILED.

acrid was it, that when it came in contact with the skin, the effect was the same as that of boiling water.

After any gentle exercise, especially in warm weather, parts of the body became covered with spots of a dark red or purple color, and were very painful and tender; in a short time these spots would be covered with minute blisters, which broke, and discharged, then dried up, forming a seab which would in a few days come off, leaving an angry and painful sore, looking much take a burn. This would be a long time in healing—frequently months. At one time it appeared on the feet and ankles, running much the same course as it had done on the other parts of her body, except that in this instance it was aggravated by exercise. These sores, moreover, assumed the character of bad ulcers, and so inflamed, that for months size was unable to walk. The deep scars left by them remain to this day. It has affected her breast to that degree that she was unable to nurse either of her last three children. Often she has been in

this day. It has affected her breast to that degree that she was unable to nurse either of her last three children. Often she has been in such distress from this disease, that for weeks she has been able to obtain but little sleep or rest, and has often said that her distress was so great she could not describe it.

At the time she commenced using your Syrup and Cerate, she had a running sore on her stomach and breast, which had been there more than a year, healing up at times perhaps in one place, but always breaking out in another. To this we applied many remedies, and used various kinds of medicines for removing the disease from the system, none of which produced the least apparent benefit. She commenced using your Syrup and Cerate a year ago last fall. She took the Syrup a few days and then commenced applying the Cerate to the sores, and at once said she had never found anything so soothing as this was. I have frequently known her to get up several times in the course of a night to apply the Cerate to her feet, in order to obtain sleep. In one or two weeks after using the medicines the sores began to heal, and before she had finished the second bettle, they were entirely well. She has now used four bottles, and is to all appearance perfectly cured, and is in better health also than she has been at any time before for twenty years. The medicine has effected in her case the most wonderful cure ever known in our section of country, and I strongly recommend all afflicted in like manner to give it a trial.

Any one desiring further information in relation to the facts or

manner to give it a trial.

Any one desiring further information in relation to the facts or particulars of the case, it will afford me great pleasure to give any such information, if they will call at my residence in Montville, or they can make inquiries of many of my acquaintances in New London and vicinity, who are conversant with them.

GILES TURNER. GILES TURNER.

The above is a plain statement of facts; they speak for themselves, and are from a source that no one who are acquainted with the person will doubt. This is only one of the numerous cases which we have in our possession, all showing the value of Dr. S. A. WEAVER'S CANKER and SALT RHEUM SYRUP, together with its invaluable accompaniment, the CERATE. They stand unequalled for the cure of all Serofulous Humors, Salt Rheum, Erysipelas, Canker, and Nursing Sore Mouth, Mercurial Diseases, Liver Compinint, Female Weakness, and all diseases arising from, or in any way counceted with an impure state of the Blood any way connected with an impure state of the Blood
